

DENTAL HEALTH CENTRE

DR. JOHN R. MACGREGOR & ASSOCIATES

To Whom It May Concern:

RE: Tim Stensrud / Tim Stensrud Design

This letter of recommendation cannot do justice to the expertise and results that Tim brought to my office design and construction.

In a time span of less than six months, October 1995 to March 1996, we negotiated the lease, drafted the plans, picked out colors, flooring, furniture, etc. and completed construction. Tim was very helpful in suggesting selections that would give us the best long term result. These selections ranged from type and color of wallpaper to light fixtures providing excellent esthetic value.

Tim was also very knowledgeable of the design and utilization of the dental equipment resulting in a very functional office that is very pleasing and comfortable for patients. The construction phase was also monitored by Tim from start to finish.

Overall, I would strongly recommend Tim for any or all phases of new office construction or renovation.

Respectfully,

John R. MacGregor
