Mr. Tim Stensrud
Stensrud Design

Dear Tim,

Now that we are fully settled in to our new office, I have the time to sincerely thank you for all you have done for us. Your dedication and professional approach to your design work was always evident. Throughout the entire project you always listened to us and helped us integrate our ideas into your plan. I believe your artistic abilities and our special requirements have given us the office we can all be very proud of.

Your ability to work harmoniously with 3 dentists, my wife, my office management team and my staff, along with our general contractor and his sub trades, is truly **remarkable**. Your recognition of the uniqueness of every office and every dentist shone through allowing us total control of our environment. You can be very proud of how you influenced so much of what "we" needed and wanted. We felt that your approach exemplified the sense of teamwork we value.

We all truly appreciate how available you ALWAYS were for discussion or to meet with us at our request. In this regard we would like to thank your wife, Dorothy and your children for "giving up dad" on numerous occasions.

I need to also thank you for all the little extras along the way. Much of what we choose ourselves was augmented by your suggestions and high standards, i.e. the carpet upgrade. We are proud of our ideas and choices and are very pleased that our "final say" was influenced by you.

Tim, again thank you for your TOTAL dedication to our project. We will continue to showcase our office and are proud to share the name of our architect and designer.

Sincerely,

Dr. Lloyd Skuba
